EXPERIENCE

SOFTMETRIX (2019-PRESENT)

Front-End web developer - I work on company projects both independently and with other front-end developers. During the application development process, I work with both the design and the back-end teams.

SOFTMETRIX (2018-2019)

Front End internship - During my internship, I've worked as a part of a team on the development of a desktop application. Web application for easy tracking of your own budget balance. Aside from perfecting my use of JavaScript, Bootstrap, MySQL, JQuery, I also mastered Express.js and Embedded JavaScript. Furthermore, I've perfected my teamwork and job delegation skills. Finally, my internship had helped me improve my access to tasks and troubleshooting abilities

SKILLS

HTML 5

- web page HTML structure creation
- links, videos, and pictures insertion
- working with HTML5 semantic elements

- Sourcetree
- NPM packages
- EJS and DataTables JavaScript libraries
- PHP (basic knowledge)

LANGUAGES

English

Near-native. Full command of both written and verbal communication.

Serbian

Native speaker.

ABOUT ME

I'm a creatively-minded individual who enjoys working on design-driven projects due to their propensity to combine the arts of design and programming into an elegant whole. With every line of code, I strive to make the web a better place.

My motto is: choose a job you love, and you'll never have to work a day in your life.
